

Career in International Relations

International relation is a combination of social science and politics. International relations represent the study of foreign affairs and global issues among countries including the roles of the government, intergovernmental organizations (IGOs), non-governmental organizations (NGOs), and multinational corporations (MNCs). International relations are the study of the political, economic, and social relation of a country and its policies beyond its boundaries. International relations focus on the interdependency of all the countries on each other. It also focusses on the connection of this dependency on a particular countries growing economy. The study of international relations helps in the understanding of economics, history, globalisation, security, global ethics, the political environment and many more global aspects.

Example: UN agencies, EU departments, the World Health Organization and the World Economic Forum.
