Answer key Revision Assessment -1

August (2023-24)

Topic – Four Fundamental operations, Factors and Multiples

1. Choose the right option

- i) c
- ii) a
- iii) c
- iv) a

2. Case study

- i) To find the greatest volume of tin we have to find HCF of (120, 180) litre.
And HCF will be 60 litres.
- ii) Factors of 120 are
1,2,3,4,5,6,8,10,12,15, 20, 24, 30,40,60,120
- iii) LCM will be 360

3.

For check, use formula.

$$\text{Dividend} = Q \times D + R$$

- 4. For 6, the number should be divisible by 2 and 3 both
- 5. To calculate the salary of 8 years, we have to multiply the eight
By 12. Then further it will be multiplied by given number.
