***The need isn't for new horizons but new spectacles to see the existing horizons.***

Humanity has always turned a setback into a comeback. I hope the world which has whirled into the global pandemic would definitely sail out of it.

The scenario has brought a paradigm shift to how we learn at schools and transformed the centuries old chalk-talk teaching model to one driven by technology. We at BCM have updated equipments and adopted hybrid learning. Furthermore, a new era has ushered in with the introduction of NEP 2020 where every educationist is piloting a venture with pedagogical innovations to transform lives. We too are a part of the same crew. With every passing year, the school sprints to the next pedestal leaving an indelible mark behind. This year too there have been tremendous achievements. Apart from academic excellence our students have made us proud with their commendable achievements at District, State & National Level Competitions. We hold to the notion that success is authored by consistent, directed, self-motivated and intelligent effort. Thus, with sincerity, dedication, perseverance and honesty we tread ahead having the conviction that if **'We do the best, He will do the rest.'**
