

"Success of any institution can be measured by the contribution the Alumni make."

With the vision to connect the alumni with the Institute, the school Alumni Association was set up in 2013. It acts as a platform through which they may contribute to the growth of their alma mater. In the same vein, it also aims to engage the current students so that they can have the necessary exposure to make informed decisions about life after schooling. Keeping these objectives in view, the forum has been formed at school website where Ex-BCMites can register themselves, put in their innovative ideas and suggestions for the betterment of their institute. Now the school proclaims of having a magnificent alumni association with approximately 1000 glorious members settled across the globe. Irrespective of varied time zones, work constraints and International borders, they always remain excited to be a part of alumni meets. Even during this unprecedented time, the alumni are tremendously contributing in empowering their juniors by conducting webinars and virtual workshops to hone their skills and guide them about various opportunities in India and Overseas. A myriad of topics have been covered in the webinars catering to the demands and interests of the students of different streams. The Association hopes to further expand the network and promote professional and personal wellbeing of its members too.
