ENDEAVOUR

Introducing a new initiative of our school: Tinkering Lab

Tinkering is one of the latest terms that are being used in the field of global education. With the advent of Tinkering Labs, BCM School is all poised to join the revolution that is aimed at converting young minds into thinkers and innovators. But what actually is Tinkering and how can it help in the development of students? Let us know:

The tinkering lab refers to space where the youngsters can experiment with ,learn, develop and conceptualize different scientific ideas. It is a lot similar to DIY method where the students are encouraged to apply the knowledge that they have gained in the classroom. It not only helps the students to learn the real life application and importance of the theories they have learned from their books but will also develop a natural affinity towards STEM.

These open-ended innovation workspaces are equipped with state-of-the art technologies like 3D printers, robotics, sensor technology kits, Internet of Things, miniaturised electronics etc., to enable students to learn and solve local community problems using emerging technologies

The Tinkering Labs not only have a proper set of equipment to facilitate experimentation but also a perfect peaceful ambiance that further speeds up the learning process and invites more attention. Besides there are teachers and lab assistants to ensure the safety of the students, avoid mishandling of tools and equipment and more importantly to answer the “hows, whats and whys” of students. Besides, they also offer a well-formulated initial phase of experimentation or tinkering that would then lead the students to learn, conceptualize and innovate on their own.

29 OLD-FASHIONED SKILLS THAT KIDS NEED TO KNOW TODAY!

- How to write a letter
- How to make a phone call
- How to take message
- How to get to know an older person
- How to play with a baby
- How to sew on a button
- How to make a genuine apology
- How to read slowly
- How to hammer a nail
- How to shake hands
- How to introduce yourself
- How to take notice of needs around you
- How to make scrambled eggs
- How to balance a checkboard
- How to write a thank-you note
- How to do laundry
- How to take care of garden
- How to fix something instead of replace it
- How to plan a healthy meal
- How to hang a picture
- How to wash dishes
- How to make a budget
- How to wait and save for something
- How to check tire pressure
- How to ask questions to get to know someone better
- How to read a map
- How to find book in the library
- How to seek counsel from someone more experienced
- How to take care of a pet

TEACHERS' CORNER

Success Mantras for Life

Good Manners

1. The way we must behave with others in a respectful and polite way is called good manners.
2. It includes our gestures, behavior, way of talking with others, and thinking.
3. It transforms a regular human being into a well-civilized person.
4. When one has made some mistake, they should always say "Sorry" to apologize.
5. Always stand and greet when someone visits your home and at the time when they leave. Before entering into somebody's room, make sure to knock on the door as it is also a good manner.
6. Always ask "May I" before taking something which belongs to someone else and still share things owned by you with others; this projects how caring you are.
7. When someone offers something, one must say "Thank You" to respect his offer.
8. When two people are talking, and someone else wants to talk to them, the person should say "Excuse Me," as it's not a good manner to interrupt two persons while they are talking.
9. Don't try and impose your opinion on others, respect other people's views, and listen to those as well.

My childhood

I guess my childhood is over,
But I am not ready to get older
Those were the days when everything was better,
I used to play with my ball and teddy bear

I guess my childhood is over,
But I am not ready to get older
Pencil to pen we all grew elder,
Days went long and studies became harder
Riding bicycles with buddies was fun at that time,
Never knew those bicycles will be rusting at this time

I guess my childhood is over,
But I am not ready to get older
Those were the days when we used to find happiness in shinchan,
Now everything is tangled up just like a trash can
Will never forget those beautiful days,
When trust was all about our pinky promises

I guess my childhood is over,
But I am not ready to get older
Those were the days where weekends felt like bliss,
The way we all got mature is just a chef's kiss

EXPLORATION

Padma Awardees 2022

On March 21, 2022, President Ram Nath Kovind gave the Padma awards to 54 people, including the first Chief of the Defense Staff (CDS) and the head of the Tata Sons.

The second-highest civilian award, the Padma Vibhushan, was presented posthumously to Gen. Rawat and Khemka, who ran the Gita Press, noted for publishing Hindu holy literature.

Padma Bhushan, the third-highest civilian honour, was given to Mr. Azad, Mr. Chandrasekaran, Mr. Mehrishi, Cyrus Poonawalla, the founder of Serum Institute of India. The award was also presented to para-athlete and javelin thrower Devendra Jhajharia, and six others.

"Unsung heroes" like Swami Sivananda, a 125-year-old yoga teacher, were among the recipients of the Padma Bhushan.

MIND BOGGLER

Riddles

1. Which is the biggest English alphabet that contains the most water in it ?
2. What is at the end of a rainbow?
3. What needs to be broken before you use it ?
4. Where will you find Friday before Thursday?
5. What has holes all over, but still holds water?

Ans. Key Vol. 14

1. River
2. This is the only number that includes all the digits arranged in alphabetical order.
3. Charcoal
4. When you add two hours to 11 O'clock, you get one O'clock.
5. 22

Dedicated to Ms. Harparkash Kaur

More than a teacher

We lost our beloved Ms. Harparkash Kaur on march 6, 2022

Her memory is a treasure.

She is loved beyond words and missed beyond measure.

She could never be thanked enough for the ways she touched the hearts of her colleagues and students.

With her knowledge and wisdom she kept the class brighter and showed the right path to her many students.

Her teachings and contagious passion will always inspire others.
