

BCM SCHOOL BASANT AVENUE DUGRI LUDHIANA

ASSIGNMENT - EVS

CLASS – 3

CHAPTERS – THE PLANT WORLD, LEAVES AROUND US.

DATE: 31 JULY, 2024.

CASE STUDY

1. A student plants a seed in a pot. He takes good care of the seed planted. What will happen to the seed? What do you think plants need to grow ?

2. This is autumn season. Many trees have shed their leaves. The gardener cleaned the garden and made pile of dried leaves. What do you think he should do with the leaves ?

COMPETENCY BASED QUESTIONS.

1. Leaves are the kitchen of the plant. They prepare food for the plant. Other than this they are used in many ways. Name the leaves used for –
Colouring palms and hair - _____
Making plates and bowls - _____
Adding sweetness in the food - _____
2. Plants are our best friends. They help us in many ways. Name a plant that has-
Very big leaves - _____
Strong thick Woody stem - _____
Needs very less water to grow - _____
3. Like our body parts, plants also have different parts. Name the part of the plant from which we get-
Carrot- _____. Potato- _____
Spinach- _____. Peas- _____
4. Look at the picture and answer the questions.

A) For what purpose leaf has been used in the picture? Name the leaf.
