READING

1. Read the passage and answer the questions that follow:

The old, mysterious clock tower stood tall in the centre of the village, its stone walls bearing the scars of time. The villagers believed that the clock tower held secrets and stories of the past, and many avoided it, fearing its eerie presence. However, a young boy named Rohan was fascinated by the tower and spent most of his days exploring its nooks and crannies. One day, while venturing into the tower's depths, Rohan stumbled upon an ancient diary belonging to a clockmaker who had built the tower centuries ago. As he flipped through the pages, he discovered that the clockmaker had hidden a treasure somewhere within the tower, and Rohan became determined to find it.
