

**Answer Key: Reading Section**

1. What do you mean by migration?

Migration is the mass movement of animals from one place to another at certain times of the year.

2. Why do some birds and animals move from one place to another?

Birds and animals migrate to escape harsh weather, search for food, and reach their breeding grounds.

3. Why do fishes like eels travel from the river to the sea?

Eels travel from the river to the sea to lay eggs. After the eggs hatch, the parent eels die, and the young ones travel back to the river.

4. What is the great mystery about the migratory animals?

The great mystery is how migrating animals decide where to go and in which direction to fly.

5. Find out the antonym of the word 'preserve'. (Paragraph 3)

Destroy

6. Make a sentence of the word 'stretch' in your own words.

Answer will vary.
