II.Answer the following in brief

- 1.Why do you think the king (Chandragupta) had special servants to taste the food he ate?
- 2.Why is Australia known as an 'Island Continent'?

III. Short answer based questions.

- 1.Describe the importance of Gram Sabha.
- 2.Mention three welfare policies of Ashoka for his subjects.

IV.Long answer based questions.

- 1.Describe the ways in which Buddha tried to spread his messages to the people.
- 2.Do you think local self government is important? Give reasons to support your answer.

V.Read the source given below and answer the following questions.

The surface of the earth is a complex zone in which three main domains of the environment meet, overlap and interact. The solid portion of the earth on which we live is called the lithosphere. The gaseous layer that surrounds the earth, is the atmosphere, where oxygen, nitrogen, carbon dioxide and other gases are found. Water covers a very big area of the earth's surface and this area is called hydrosphere. The Hydrosphere comprises water in all forms ie. ice, water and water vapours. The biosphere is the narrow zone where we find land, water and air together, which contains all forms of life.

- 1.Name the four major domains of the earth.
- 2.Which domain is important for living organisms and why?
- 3.Define hydrosphere.
