ASSIGNMENT-1

<p>Q.1</p> <p>1.</p> <p>2.</p> <p>3.</p> <p>4.</p>	<p>Read the following passage carefully and answer the questions – (5)</p> <p>Most trees grow a layer of wood each year. When the tree is cut down, the layers can be seen as rings in the trunk. And counting the number of rings tells you how old the tree is!</p> <p>Tree rings also speak of the weather changes that have occurred during the life of a particular tree. In a season of good rainfall, the rings will be thick and during drought, the growth is slowed down and the rings will be thinner.</p> <p>Trees like the bristlecone pines, sequoias and redwoods of California are living records of variations in climate for the last 9000 years!</p> <p>Studying the changes in tree ring patterns is a science called ‘dendrochronology’. Dendrochronology is the dating of climate changes in the past through study of tree rings to understand life in ancient times.</p> <p>Answer the following –</p> <ul style="list-style-type: none"><li>i. What two things do tree rings indicate?</li><li>ii. In order to calculate the age of a tree, we have to.....it has.</li><li>iii.
