CLASS VI – WEBSITE ASSIGNMENT WITH ANSWERS

Section A – MCQs

1. A student says that countries near oceans usually have a moderate climate. Which statement best supports the student's observation?

- a) Oceans increase desert formation
- b) Water heats and cools slowly, affecting nearby temperatures
- c) Oceans block sunlight from reaching Earth
- d) Ocean water is always warm

Answer: b) Water heats and cools slowly, affecting nearby temperatures

2. A community started cleanliness drives, tree plantation campaigns, and water-saving activities together. Which value is mainly reflected in this action?

- a) Competition
- b) Isolation
- c) Collective responsibility
- d) Individual achievement

Answer: c) Collective responsibility

3. Assertion (A): Oceans affect the climate of nearby areas.
Reason (R): Water heats and cools slowly.

- a) Both A and R are true and R explains A
- b) Both A and R are true but R does not explain A
- c) A is true but R is false
- d) A is false but R is true

Answer: a) Both A and R are true and R explains A

4. Assertion (A): Cooperation strengthens a community.
Reason (R): People help each other in times of need.

- a) Both A and R are true and R explains A
- b) Both A and R are true but R does not explain A
- c) A is true but R is false
- d) A is false but R is true

Answer: a) Both A and R are true and R explains A

Section B – Very Short Answer

5. State two major roles of oceans in human life and the environment.

Answer:

- **Oceans help in transportation and trade.**
- **Oceans help in controlling climate and provide rainfall.**

6. Mention any two responsibilities of family members.

Answer:

- **Caring for each other.**
- **Sharing household duties.**

Section C – Short Answer

7. Differentiate between continents and oceans.

Answer:

Continents: Large land masses on Earth. Example: Asia, Africa.

Oceans: Large water bodies on Earth. Example: Pacific Ocean, Indian Ocean.

8. Explain why cooperation is important in a community.

Answer: Cooperation helps people work together and solve problems easily. It creates unity, peace, and support during difficult times. Communities become stronger when members help each other.

Section D – Long Answer

9. Explain the importance of oceans in human life.

Answer:

- **Oceans provide food such as fish and other seafood.**
- **They help in transportation and international trade.**
- **Oceans influence climate and rainfall.**
- **They are a source of minerals and natural resources.**
- **Oceans support marine life and maintain ecological balance.**

Section E – Case Study

10. Read the passage carefully and answer the questions:

A coastal village depends mainly on fishing. During storms, fishermen cannot go to sea, so the whole community helps affected families by sharing food and resources.

Answers:

- 1. The occupation mentioned is fishing.**
- 2. Storms are dangerous because strong winds and high waves can damage boats and risk the lives of fishermen.**
- 3. The value shown by the community is cooperation and helping others.**
- 4. Oceans help people by providing fish and supporting transport/trade.**

Section F – Map Work

11. Identify the continent on the world map based on the statement: “It is the largest continent where India is located”.

Answer: Asia

12. Identify the ocean on the world map based on the statement: “This ocean lies to the South of India.”

Answer: Indian Ocean
