| BCM SCHOOL, BASANT AVENUE, DUGRI ROAD, LUDHIANA | | |
|---|--|--|
| JULY ASSIGNMENT | | |
| | CLASS: VII (MATHEMATICS) | |
| | TOPICS: SIMPLE EQUATIONS & LINES AND ANGLES | |
| SECTION A (Multiple Choice Questions) | | |
| 1. | Four-fifths of a number is greater than three-fourths of the number by 4. Find the | |
| | number. | |
| | (a) 40 (b) 60 (c) 80 (d) none of these | |
| 2. | Twice a number when decreased by 7 gives 45. Find the number. | |
| | (a) 26 (b) 23 (c) 25 (d) none of these | |
| 3. | Assertion: The sum of the measures of the angles in a linear pair is 180°. | |
| | Reason: when two lines intersect each other at a single point, linear pairs of angles | |
| | are formed. | |
| | a) Both Assertion and Reason are correct and Reason is the correct explanation for | |
| | Assertion | |
| | b) Both Assertion and Reason are correct and Reason is not the correct explanation | |
| | for Assertion. | |
| | c) assertion is true but the reason is false. | |
| | d) both assertion and reason are false. | |
| | SECTION B (2 MARKS QUESTIONS) | |
| 4. | Find the angle which is five time its complement. | |
| 5. | POR is a line. Find the value of a. | |
| | <i>fo</i> | |
| | | |
| | | |
| | $(3a+5)^{\circ}$ (2a-25)° | |
| | \overrightarrow{P} O R | |
| SECTION C (3 MARKS QUESTIONS) | | |
| 6. | Two supplementary angles are in the ratio 3 : 2. Find the angles. | |
| 7. | Line I II m, p II q; find a, b, c, d. | |
| | | |
| | $\leftarrow p$ | |
| | 60 4 | |
| | $\langle \overline{q} \rangle \to q$ | |
| | | |
| SECTION D (5 MARKS QUESTIONS) | | |
| 8. | The ages of Arun and Rahul are in the ratio 7 : 5. Ten years hence, the ratio of their | |
| | ages will be 9 : 7. Find their present ages. | |
| 9. | The difference in the measures of two complementary angles is 12°. Find the | |
| | measure of the angles. | |

| 10. Student of a school prepared some articles on the occasion of Deepawali to help poor people. They made diyas, candles, rangoli ari designs, flower decoration kits and homemade sweets, and distributed in a slum area. They collected total money Rs. 1568/ They got 1 rupee coins, 2 rupees coins, 5 rupees coins and 10 rupees coins. The number of 10 rupees coins are half of 1 rupee coins, 5 rupees coins are one third of 1 rupee coins and 2 rupees coins are one fourth of 1 rupee coins. Total number of coins are 400. Total amount of 2 rupee coins is invested on making diyas and amount of 10 rupee coins on making sweets. According to above paragraph, give the answers of the following questions: a) Write a simple equation for total number of coins collected. b) Find the number of 1 rupee coins. c) Find the number of - i) 5 rupees coins ii) 10 rupees coins | SECTION E (Case Study) | | |
