### **Section- B Very short questions**

- 5Q -How did the early humans interact with their environment?  
6Q-What is the position of equality in India, democratic country?

### **Section- C Short Answer Based Questions**

- 7Q. How can you say that biotic components are different from abiotic components?  
8Q- Who were Samantas? What service did they provide to the existing king?

### **Section- D Long Answer Based Questions**

- 9Q. What were the activities associated with chola temples?

### **Section- E Source Based Question**

10Q. Read the source given below and answer the following questions.

Riya was curious about how earthquakes occur. Her teacher explained that earth is made up of three main layers- the crust, the mantle and the core. To make better understand, the teacher used a boiled egg as an example. The eggshell represented the Earth's crust, the egg white was the mantle, and the yolk represented the core. Riya learned that the crust is the outermost and thinnest layer, made mostly of solid rocks.

- a. What are the three main layers of the Earth?  
b. Which layer is the thinnest layer?

### **Section- F Map Skill**

11. Locate the following in the political map of India.  
a) Largest land locked state  
b) Capital of Assam
