Paper Pattern Assignment

Class- V

English

Section A: Reading

A1 Read the following passage carefully and answer the questions that follow:

1. Long ago, books were copied by hand, and it took months to prepare a single book. Today, modern libraries use computers to organise thousands of books. Many libraries also provide ebooks, audiobooks and internet facilities, making learning easier for students of all ages.

2. A library is more than a room full of books. It is a place where people read quietly, complete projects and discover new ideas. Librarians guide readers in selecting suitable books and teach them how to find reliable information. Regular reading improves vocabulary, imagination and confidence.

3. Every student should develop the habit of visiting the library regularly. Borrowing books, returning them on time and handling them carefully are signs of a responsible reader. A good library encourages curiosity and helps children become lifelong learners.

I. Complete the following table.

Past Method of Making Books	
Modern libraries provide	
Benefits of Regular Reading	

II. Answer the following .

Q – In what ways do librarian help readers ?

Ans - _____

III. Find the words from the passage which mean the following:

1. Recorded books that can be listened to (Para 1)
2. To lead or show the way (Para 2)
3. Dependable or trustworthy (Para 2)
4. Someone who behaves carefully and sensibly (Para 3)

	IV. Assertion–Reason Assertion (A): Every student should visit the library regularly. Reason (R): A library encourages curiosity and helps children become lifelong learners. Options: A. Both A and R are true, and R is the correct explanation of A. B. Both A and R are true, but R is not the correct explanation of A. C. A is true, but R is false. D. A is false, but R is true. V. Riya visits the library regularly but often returns books late and sometimes damages them. What should she do to become a responsible reader? A. Borrow more books at a time B. Return books on time and handle them carefully C. Read only storybooks D. Avoid visiting the library VI. Your friend returns a library book late and with torn pages. What advice would you give to your friend? Ans -	
A2	Read the passage carefully and answer the following questions. One morning, Riya was helping her grandfather in the garden when she noticed a tiny seed lying near a flowerpot. She asked her grandfather what would happen if they planted it. He smiled and suggested that they put the seed in the soil and water it regularly. Riya planted the seed and placed the pot where it could receive sunlight. After a few days, a small green shoot appeared. Riya was delighted and began observing it every morning. Her grandfather explained that plants need water, sunlight, air and nutrients	

	from the soil to grow. He also told her that plants make their own food through a process called photosynthesis, using sunlight. As the weeks passed, the little shoot grew into a healthy plant with broad green leaves. Riya understood that plants play an important role in our lives. They provide oxygen, food and shelter for many living beings. She decided to take care of more plants and encourage her friends to grow them too. 1. Riya's plant is not growing well even though she waters it regularly. What should she check first? A. Whether the plant is receiving enough sunlight B. Whether the pot is colourful C. Whether the leaves are large D. Whether the seed is expensive 2. Riya wants to help her school become greener. Which action would be the best choice based on what she learned? A. Encourage students to grow and care for plants. B. Remove plants from the school garden. C. Water plants only once a month. D. Keep all plants inside dark rooms. 3. Suppose a plant is kept in a place with no sunlight. Which process mentioned in the passage would be affected most directly? A. Germination B. Photosynthesis C. Digestion D. Sleeping 4. If plants disappeared from our surroundings, which problem would be most likely to occur? A. There would be fewer sources of oxygen and food. B. People would get more sunlight. C. Soil would become unnecessary. D. Animals would need less food.
