

READING SECTION

A. Read the comprehension passage carefully and answer the question that follows.

Honeybees are small insects, but they play a big role in nature. They live in large groups called colonies and work together to build hives, collect nectar, and make honey. A single hive can contain thousands of bees, including one queen bee, many worker bees, and some drones. The queen bee lays all the eggs, while worker bees collect nectar from flowers and protect the hive.

Bees are also important pollinators. When they fly from flower to flower, they help plants grow, breed, and produce food. Without bees, many fruits and vegetables we eat would not grow properly.

But what makes bees so special is their teamwork. They know why they must protect their hive and keep it clean. Bees also understand how to use their senses to find flowers, and where to go using the sun and the scent of blossoms. This helps them return to the hive with nectar, which is later turned into honey. Their smart behavior shows how even tiny creatures can do big things.

Bees use a special dance, called the “waggle dance,” to show others where to find food. They are hardworking creatures and can fly up to 15 miles per hour. However, honeybees are in danger due to pollution, pesticides, and habitat loss. It is important to protect them to keep our environment balanced.

a.. Tick the correct option.

1. What is the main job of the queen bee in a hive?

- A) To collect nectar
- B) To guard the hive
- C) To lay eggs
- D) To fly to flowers

2. Multiple Choice Question (MCQ):

What helps bees communicate the location of food to others?

- A) Buzzing loudly
- B) The waggle dance
- C) Changing color
- D) Making honey

3. Fill in the blank:

Bees help plants grow and produce food by _____ them.

4. True or False:

Worker bees are the only ones in the hive that can lay eggs.

(True / False)

5. Why would fruits and vegetables not grow properly without bees, even though plants can grow on their own?

6, How do bees know where to go when searching for flowers?

WRITING SECTION

B. Suppose you are Rakhi, of KVM School Bangalore. You have found a cardboard. Draft a notice for the same.

GRAMMAR SECTION

C Fill in the blank with suitable adjective.

1. The _____ puppy wagged its tail and ran to its owner.
2. She wore a _____ dress to the party that caught everyone's attention.

*** Fill in the blank with suitable degree of adjective**

1. This puzzle is _____ than the one we solved yesterday.
2. Of all the students in the class, Riya is the _____ at mathematics.

*** Fill in the blank with suitable article**

1. I saw _____ owl sitting quietly on the tree branch.
2. He bought _____ umbrella and _____ pen from the store.

*** Rearrange the following words into meaningful sentence and punctuate it.**

1. a/ is/ my/ teacher/ father
2. some/ you/ do/ rice/ want
