

SECTION A : READING SKILLS

I. Read the following passage carefully.

1. India is a country of many languages. The constitution recognises 22 languages officially, but over 121 unique languages have been identified in the country.

2. To preserve and encourage the literary function of language, the government introduced 'classical languages' in 2004. According to the Ministry of Culture, a classical language is one that is at least 1,500 years old and has ancient, valuable literature recorded in it. Further, such a language is original and not derived from another language. Based on these guidelines, six languages have been classified as classical languages: Tamil, Sanskrit, Kannada, Telugu, Malayalam and Odia.

3. The following graph shows the percentage of Indian people whose mother tongue is a classical language. This is as per data collected by the census of 2011. The census was not conducted in 2021 due to the pandemic.

4. According to the graph, around 6.7% of the Indian population are native speakers of Telugu, whereas Sanskrit has been identified as a mother tongue by only 0.002% of the population, which is around 24,821 people. Malayalam has the second lowest number of native speakers, making up about 2.9% of Indians.

5. The 2011 census data also noted that a majority of the native speakers reside in the area where their mother tongue originated. For example, 93% of Kannada speakers live in Karnataka. Similarly, 93% of Malayalam speakers live in Kerala.

6. Balancing the preservation of culture and inclusivity is a delicate equation for a heterogeneous country like India. With growing awareness, concepts like 'classical languages' may help us achieve harmony.
