Empowering Students for Career Success

BCM School hosted a workshop on "Career Excellence and Overcoming Hurdles" led by Mr. Gauravdeep Singh, Chairman of Initiators of Change. The workshop aimed to equip students with strategies for achieving career success while navigating challenges. Mr. Singh emphasized the importance of self-love and focus in achieving career goals. He encouraged students to embrace their strengths, stay motivated, and overcome obstacles with confidence. The interactive session allowed students to share their career aspirations and challenges, and Mr. Singh offered practical advice on maintaining motivation, setting achievable goals, and cultivating a positive attitude. The workshop concluded with a Q&A session, providing students with an opportunity to address their career concerns. The event inspired students to pursue their goals with confidence and determination.

Inter BCM Sports Quiz Competition

On National Sports Day, the school hosted an Inter-BCM Sports Quiz Competition - Athletic Ace Arena, honoring the legendary Indian Hockey player, Major Dhyan Chand, on his birth anniversary. Four teams from different BCM schools participated with enthusiasm and zeal. The quiz featured engaging and challenging questions that put the participants' knowledge of various sports to the test.

The competition was fierce, with teams vying for top positions in a nail-biting contest. Ultimately, **BCM School, 32 Sector, Chandigarh Road** emerged victorious, securing the **first position**, while the host school, **BCM Dugri**, closely followed in **second place**.

This event was a fitting tribute to Major Dhyan Chand and showcased the students' impressive sports knowledge and spirit.

Innovative Science Project- RRR

BCM School, Dugri, witnessed the successful participation of its Class IX and X students in the innovative RRR Science Project: "Teen 'R' Apnao, Prithvi Ko Bachao!" organized by the Municipal Corporation of Ludhiana. This visionary initiative aimed to instill sustainable practices in young minds, who showcased their talent and innovative ideas through various models and exhibits. The students' projects demonstrated a deep understanding of key scientific concepts and their applications to real-world challenges, including Magnetic Levitation, Drip Irrigation, Energy Conversion, Conservation, Solar-Powered Devices, and Heat Transfer methods. The primary goal of this project was to inspire students to think creatively and develop innovative solutions to environmental challenges, using minimal resources and maximizing results. This initiative was not just a competition but an opportunity for students to apply the principles of Reuse, Reduce, and Recycle to solve real-world problems. The students' work was evaluated by a distinguished jury from the Municipal Corporation of India, in association with Vidya Champ, ensuring the integrity and fairness of the competition.

Parents' Corner

Hard work

History has shown us time and time again that dedication and perseverance are the keys to unlocking our dreams. Without hard work, our aspirations remain just that - dreams. Think about it, when was the last time you saw someone achieve greatness without putting in the effort? Probably never. The truth is, success is not just about achieving fame or wealth; it's about living a life that's true to who you are. It's about finding comfort, love and happiness in every aspect of your life. When we commit to hard work, we start to notice changes within ourselves. We become more disciplined, focused, and driven. Our relationships flourish, and our personal growth skyrockets. That's because hard work isn't just about what we do; it's about who we become in the process.

Remember, success isn't just about the destination; it's about the journey. It's about the late nights, early mornings and endless cups of coffee. It's about the sacrifices we make and the obstacles we overcome. So, let's embrace hard work, not just as a means to an end, but as a way of life. Let's strive to become the best version of ourselves, and watch our lives prosper as a result.

Teachers' Corner

Learning Beyond the Classroom

“Learning is the only thing the mind never exhausts, never fears, and never regrets.” Learning goes far beyond what you encounter within the walls of a classroom. Real-world experiences teach valuable life skills, like responsibility and independence, whether you're managing chores at home or taking on a part-time job.

Engaging in your community through volunteering allows you to develop empathy, teamwork and a sense of responsibility; while exploring nature helps you connect with the environment and understand the science of the world around you.

Creative expressions like writing, music, or art nurtures your imagination and problem-solving abilities, and immersing yourself in different cultures—whether through travel, festivals, or learning about them—broadens your perspective and appreciation for diversity. Developing hobbies and passions outside the school fosters dedication and joy and travel, even to nearby places, offers rich learning experiences that bring history, culture, and geography to life. Social interactions, too, are a crucial aspect of learning, as they help you build communication skills, empathy and the ability to work with others. All these experiences help shape you into a well-rounded, knowledgeable and capable individual, preparing you for life beyond just academics. So, embrace every opportunity to learn from the world around you, because education truly happens everywhere.

Remember, learning isn't just about getting good grades. It's about becoming a well-rounded person who is curious, open-minded and ready to take on new challenges. So, explore, try new things and always be eager to learn—because life is full of opportunities to grow!

Students' Corner

Imagine being a master juggler, effortlessly balancing multiple roles and responsibilities every day. This is the reality for countless women, who navigate complex societal expectations with remarkable grace and resilience. From nurturing mothers to loving daughters and capable colleagues, women wear many hats with ease, excelling in every aspect. Yet, despite their many strengths, women in India still face significant barriers to empowerment. Education is a powerful catalyst for change, and mass media plays a vital role in shedding light on these issues. But true empowerment begins within. It's about embracing a mindset shift, recognizing that women have the power to take ownership of their lives and seize opportunities for freedom and happiness. By doing so, they can unlock their full potential and live a life that truly reflects their values, passions, and dreams.
